Welcome

Dear Colleagues,

It gives us great pleasure to announce the 12th European Solid Mechanics Conference to be held in Lyon, France, 7th – 1st July, 2025 (ESMC 2025). The conference is being held under the auspices of the European Mechanics Society (EUROMECH, <https://euromech.org>).

The European Solid Mechanics Conference is the major event for the solid mechanics community in Europe, and provides a unique forum for scientists and engineers from Europe and across the world to exchange ideas on the current state-of-the-art in the mechanics of solids, on new concepts and ideas and to identify new research directions.

Solid mechanics is the bedrock of engineering design in areas such as mechanical engineering, civil and structural engineering, and biomedical engineering. It is a critically important element in the design and development of almost all technologies and products in these areas, such as aircraft, automobiles, buildings, bridges, and medical implants and devices. Further, solid mechanics is a key enabler in the development of new technologies that address the major global challenges of our time in sustainability, renewable energy and health.

The first European Solid Mechanics Conference was held in Munich in 1991. This very successful conference initiated a tri-annual series with subsequent conferences held in Genova, Stockholm, Metz, Thessaloniki, Budapest, Lisbon, Graz, Madrid, Bologna, and Galway. The 12th European Solid Mechanics Conference will take place at the Cité Internationale de Lyon, in the city of Lyon, France.

We have assembled an outstanding group of invited lecturers for the conference, covering the General Lecture and five Plenary Lectures.

The conference is organised in terms of the following eight themes:

- Mechanics of Materials
- Biomechanics
- Continuum Mechanics
- Experimental Mechanics
- Computational Mechanics
- Dynamics, Waves, and Metamaterials

- **Structural Mechanics**
- **Tribology**

There is a General Session for each theme and over fifty Mini-Symposia that cover a range of specialised topics, grouped under each theme.

We warmly welcome you to the wonderful city of Lyon for what promises to be a very exciting and stimulating event.

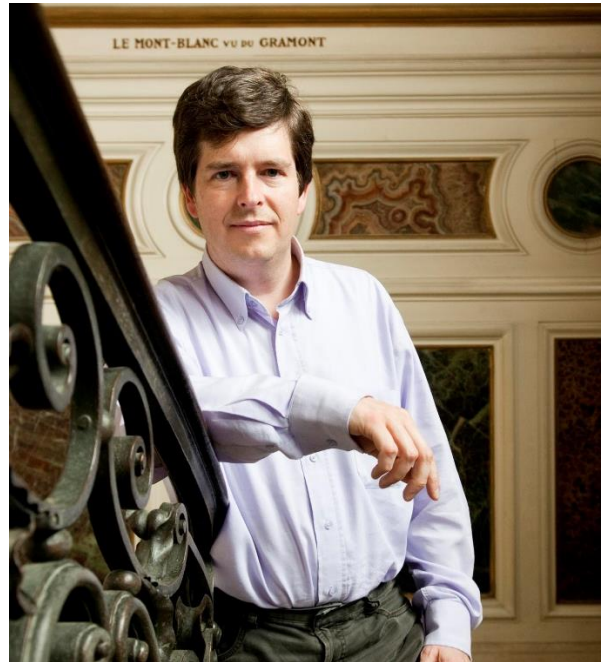

The following brochure describes the available possibilities for you to eventually commit as a sponsor to this conference. Have a good read at it.

Yours sincerely,

Eric Maire, Chair of ESMC 2025

Samuel Forest, Vice Chair of ESMC 2025

Why Sponsor ESMC 2025 ?

ESMC 2025 will be a fully in-person conference.

We welcome sponsorship from companies and organisations who wish to showcase their products and services and have the opportunity of networking with academics and practitioners in the field.

We appreciate and rely on the support of the companies and organisations who sponsor this event, exhibit and participate at the conference. Our experience suggests that the sponsor and exhibitor networking aspect of the conference is of significant benefit to both exhibitors and delegates.

- ✓ **Major international conference and forum where engineers and scientists are trained for your business**
- ✓ **Introduce your products or services to delegates and interact with a highly focused, motivated, engaged and receptive audience**
- ✓ **Excellent opportunity for you to show your support for cutting edge research and academic excellence**
- ✓ **Establish personal contacts and develop networks with interested parties from around the world**
- ✓ **With the significant number of postgraduate students and postdoctoral researchers that will be in attendance, you will be able to engage with, and support the training of, your potential future employees**
- ✓ **Discuss the latest developments in engineering and scientific research with world-leading experts**

Interest for ESMC conferences has been building over the years and the last conference in 2022 attracted over 1,200 delegates and abstract submissions.
